AEROPORT DE LLEIDA

A great venue
for the best
aeronautical
fair and show

01

Lleida Alguaire airport

Airport Data

- ILD/LEDA 4C
- Runway 31/13: 2.500x61m
- Navigation Aids:
 - RWY 31: ILS/DME CAT I, LOC, VOR
 - RWY 13: VOR/DME
 - RWY Centre line lighting
- Apron: 36.100m²
- Lights: Dual PAPI on each RWY Threshold
- Airport Elevation: 1.152 ft. / 351m
- Fire category: HR AD: CAT 5/7
- Refuelling capacity:
 - JET A-1: 2 tankers 35,000 L, 15L/s.
 - AVGAS 100LL: 1 tanker 8,000 L, 3.3L/s.

Unique airport

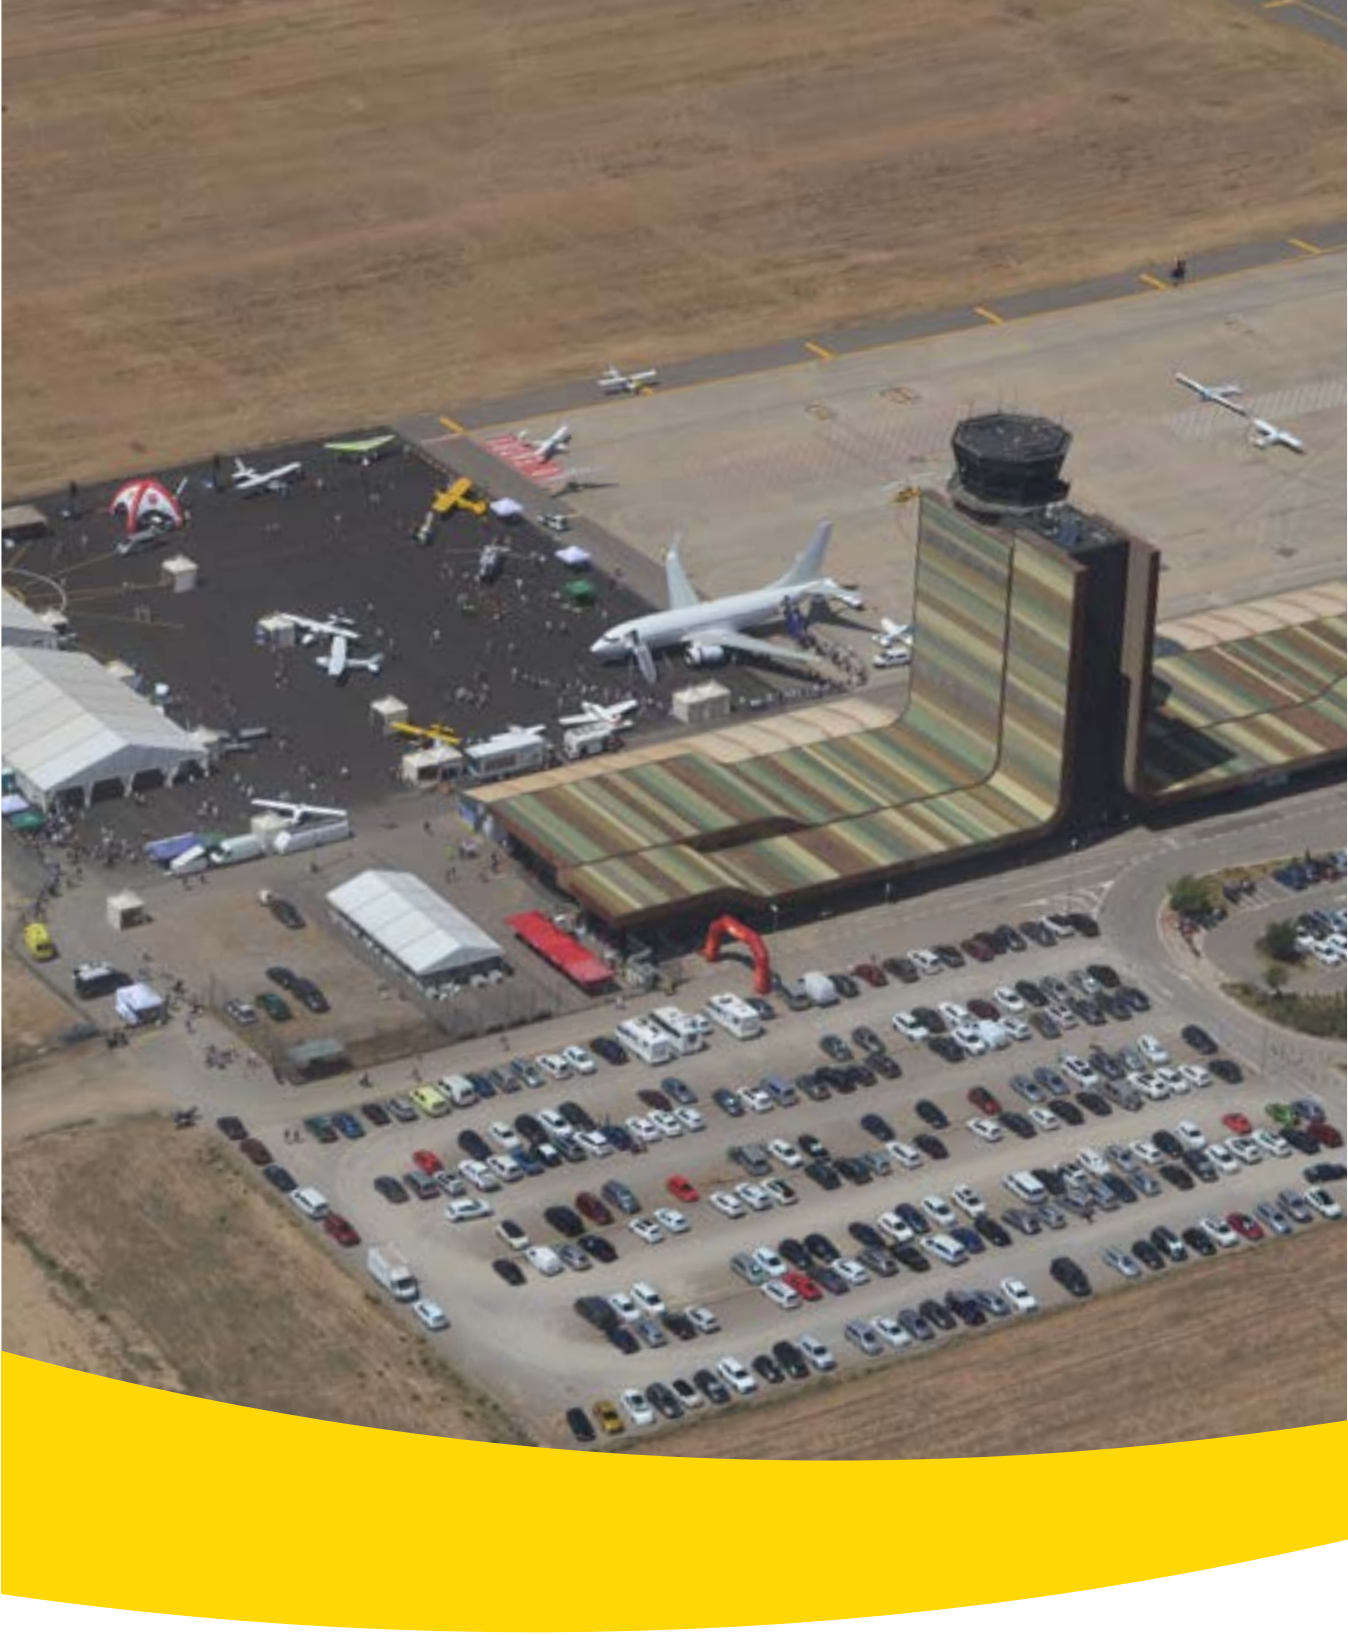

- EASA certified international airport
- Wide availability for aeronautical activities
- Flexible use of runway and platform
- Airspace activated on demand
- No noise, night or slot restrictions
- Suitable for visual circuit training purpose
- Training facilities: briefing rooms available
- More than 180h of land available
- Hangar area and free storage

Activities

- MRO
- Aircraft storage and preservation
- Training
- Testing
- Research
- Showroom

Services Available

- Fuelling: HR ATS
- Handling: HR ATS
- Security: 24H
- Restaurant and Bar
- Free parking
- Free wifi
- Business centre

02

General facts and figures

The only fair dedicated to aeronautical and aerospace industry

- ✓ 7 years on the go!
- ✓ More than 5.000 visitors every year
- ✓ Nearly 100 exhibitors in 2022!
- ✓ Great aircrafts on static display
- ✓ Fly-in all weekend
- ✓ Organized by all the territorial administrations
- ✓ Big opportunity for network and for start-ups in aeronautical business
- ✓ Conferences of professionals in the airline sector
- ✓ New air mobility development on display
- ✓ Complementary activities for children
- ✓ Acrobatic exhibitions all weekend

03 Programme

Saturday 11th June

10h

- Opening doors
- First stage of the ultralight Spanish Championship

11h

- Conference "Presentation of the Droneoria project for the reforestation of burned forests with Drone technology", Andreu Ibañez, President of the LleidaDrone Association
- Second stage of the ultralight Spanish Championship.
- Drone sessions in the Arrivals area through the morning for children to practice

11.30h

Official opening of the fair:

- Mr. Bernat Solé, Catalan government Delegate in Lleida
- Mr. Isidre Gavín, Secretary of Land and Mobility in Catalunya

12h

- Demonstration of drone flights in the aircraft exhibition area

12.30h

- Conference "Autonomous Aerial Vehicles (AAVs)". Ricardo Ortega, AVs/UAM, EHang Project Director

13h

- Precision landings of the ultralight Spanish Championship

16h

- Conference "Training of professional pilots" Xavier Ribas, Director of admissions and instructor at Aero Link Fly Academy

17h

- Conference: "Pangea Aerospace or how to make access to space cheaper", Adrià Argemí, Co-Founder & CEO of Pangea

18h

- TOL ultralight Spanish Championship (Short take off and landing)

20h

- Closing of doors

Sunday 12th June

10h

- Opening doors

11h

- Conference "Coexistence in the air" Xavier de Martí, Head of the Eastern Region ATS Division and Air controller
- Drone sessions in the Arrivals area through the morning for children to practice

11.30h

- Conference "The profession of air traffic controller" Rogelio Liñan. Head of Skyway instruction and Air controller

12h

- Conference "Lleida-Alguaire airport project within the NewSpace strategy of Catalonia" Miquel Sureda, Researcher at the Institut d'Estudis Espacial de Catalunya (IEEC) and professor at the ESEIAAT of the Universitat Politècnica de Catalunya (UPC)
- Demonstration of drone flights in the aircraft exhibition area.

12.30h

- Conference "Catalonia Speceport in the framework of Catalonia's NewSpace strategy, Cristina Ramos Pagès, responsible for the Drones community of the Digital Catalonia Alliance, Fundació i2CAT

*Drone conferences and workshops are held in the arrivals area. The rest of the activities take place in the aircraft exhibition and stands area.

04

Become an exhibitor in 2023

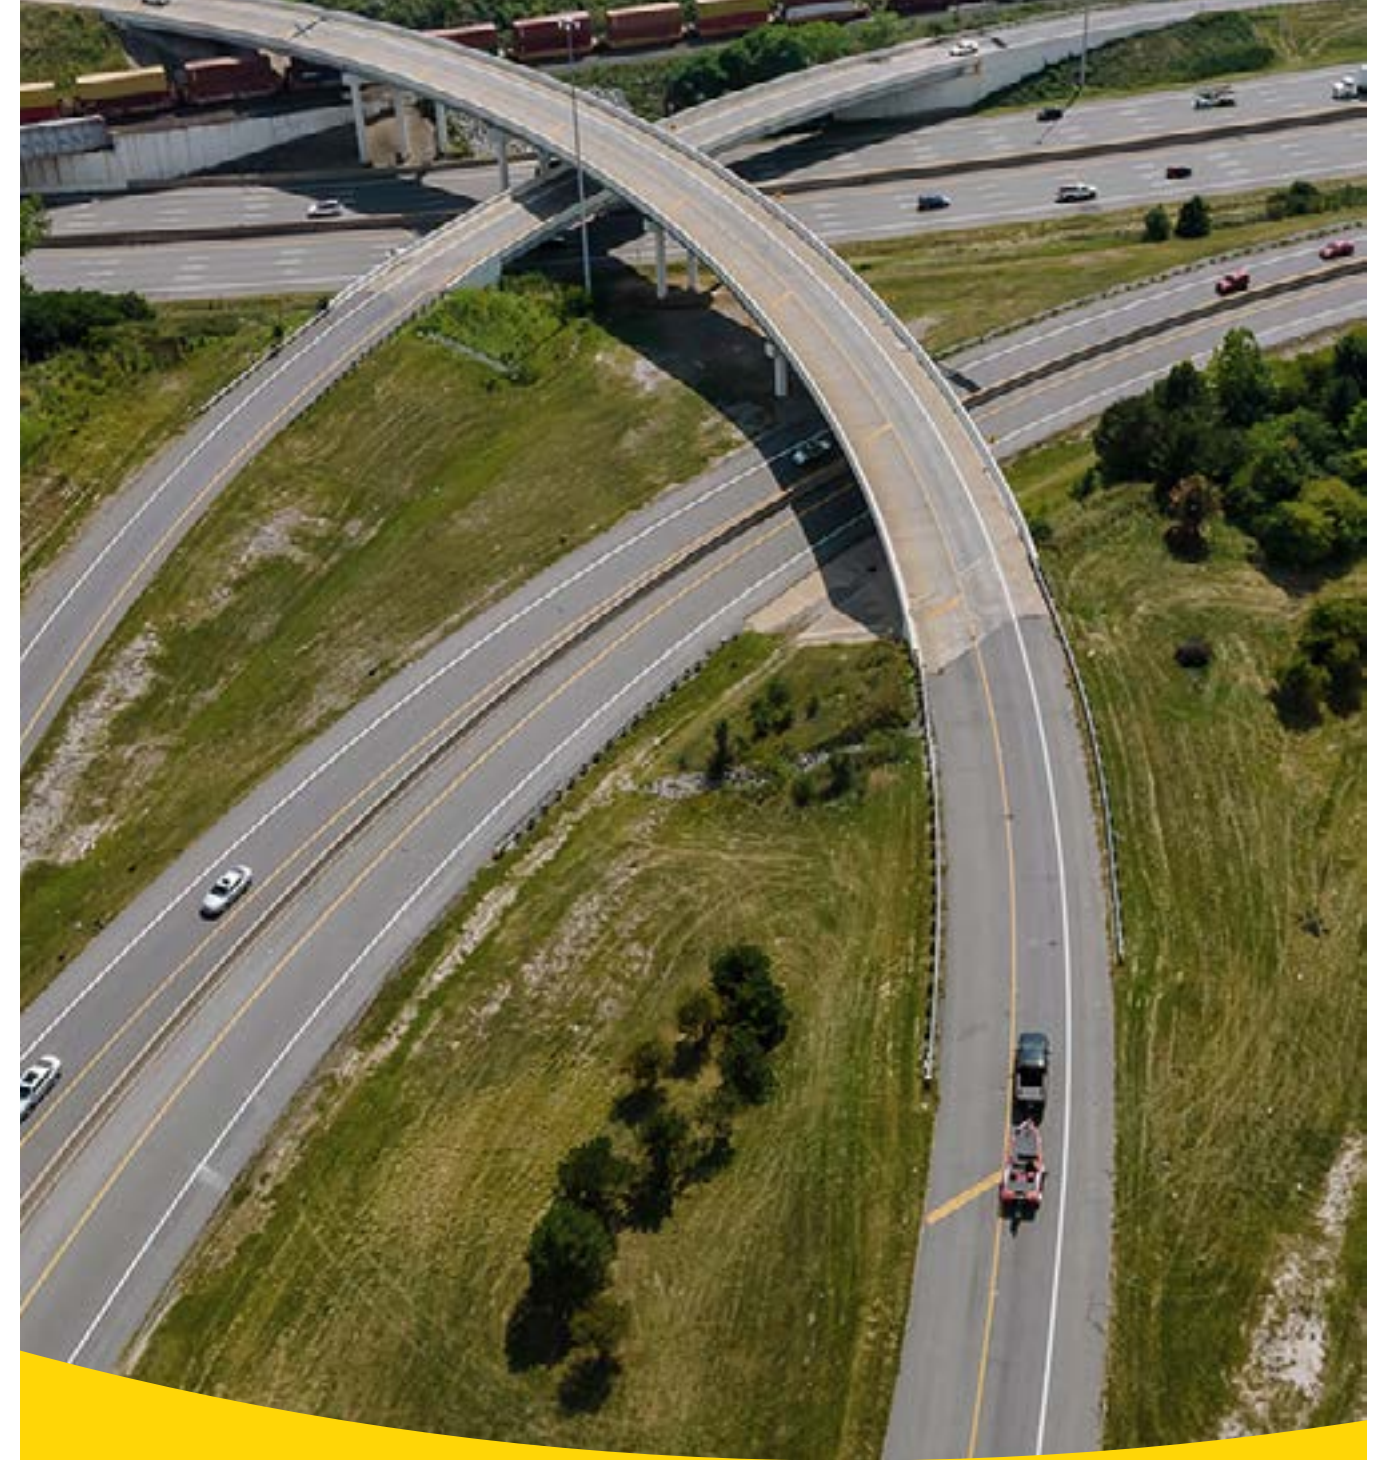

The Lleida-Alguaire airport is the ideal site for an aeronautical and aerospace company. It is the perfect location and enjoys many advantages being exclusively adapted during the weekend of the event for the participants.

The objective is to allow visitors and exhibitors to discover new business and create a network of opportunities in the emerging sectors of the aeronautical and aerospace sector.

Contact us and get a
space assignment in the fair:
info@aeroportlleida.cat.

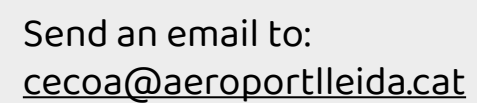

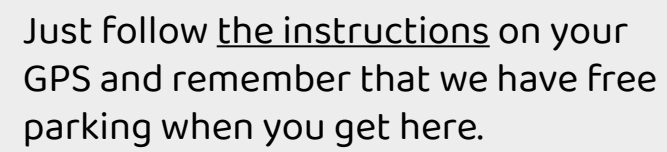

Get your aircraft on display.
Get a stand in a business orientated fair.

05

Getting here

06 Highlights 2022

07

Exhibitor directory 2022

Drones

Companies that offer services with small or large drones for different uses, such as agriculture and livestock, fire detection, inspection of electrical towers, transport of medicines, surveying, transport of passengers, ...

Aerofor Dron

Aldoratech

Asetra&Acepdron

Ehang

Pirineos Dron

TSA CENTER

Security corps

We have had different security corps brining their aircrafts and drones to explain the use air mobility for the protection of people and property.

Agents Rurals

Guardia Civil

Policia de la Generalitat, Mossos d'Esquadra

Aerotaxis

Companies that offer air taxi and charter services tailored to the needs of each client. Experts in executive aviation products and services.

ELA Aviación

Gestair exclusive Airlines

AirHorizont

UEP Fly

Helicopters

Aeronautical companies focused on helicopter uses pilot schools for helicopters, filming, air inspections, tourist flights among other uses

Audax helicopters

Bigas Group

Coptering

Eliance

Helipistas

Aeronautical equipment sales

Companies selling all kind of aeronautical equipment, products, fuel, merchandising,....

Aerohercal

Ambiti

Aviasport

Buildair

Bonarea

Gespasa

Fly Global Luxury

Mangas de viento

Mecanizaciones aeronauticas (masa)

ULpower Aero Engines

McAvionics

Camotool

M. Llonch-Enginyeria Miltecnic

Aeronautical company

Companies based on space exploration, consultancies, aerial survey or aerial patrol aircraft, products for pilots, sale of aircraft, companies dedicated to the maintenance, repair, advice, and sale of general aviation aircraft.

Adanair

Grup Airmed

Reconeixements mèdics Dra. Reguant

Futur Hangars

Pipistrel

TL Spain

Wingmaster

Rosique Aircraft

Servitec

Cirrus Aircraft

Windoor

Flight school

Schools to learn to fly with state-of-the-art technology, professional flight training for different aircraft. From different degrees for ULM for leisure purposes to professional pilots for different airlines, including the degree in Commercial Aviation Pilot and Air Operations or electromechanical degrees.

AAG (Advance Aviation Group)

Aerolink

Aircatfly

Airbet

BAA Training

CESDSA

Chistau adventours

DreamAir

EAS Barcelona

EFAV

Escola de vol "La Serra"

Mediterranean Fly School

MAD21

Skyway

Formatic Barna

Ceae Centro de estudios aeronauticos

Flying clubs and associations

Associations dedicated to the practice and promotion of aeronautical activities through competitions, for storing aircraft, refueling facilities and an area dedicated to cleaning, repairing, and maintaining equipment.

Aeroclub de Reus

Aeroclub Barcelona Sabadell

Aeroclub Benabarre

Reial Aeri Club de Lleida

AOPA

Federaci  a ria Catalana

Fundaci  Parc aeron utic de Catalunya

IVAO

Vols per a tothom

Magazines

Airline92

Avion Revue

Extracrew

Newspace

Airbus

Cosmic Research

Pangea

Others

There were also many Aeroclubs that are also flying schools, and the Federation of ULM pilots together with Aircraft Owners and Pilots Association

Campamento
aeronáutico La Loma

Frisomat

Corimpex

Games and planes for
children and adults!

Que Xulo
Fenix Flyteam
Tacro

08
History

2013

The first idea of organizing a festival related to the aeronautical world was in 2013 when we believed the airport was a usefull showcase for the companies and enterprises in Catalonia. We organized an event with parades of ultra-light aircraft, general aviation and historical aircraft, demonstrations of rescues, sailboats, balloons and aeromodelling.

2015

The LleidaairChallenge festival repeated its success consolidating air shows and improving the experience for the public at the Lleida-Alguaire airport. There were also some stands of companies based in the airport, flight schools, aeronautical shops, etc.

2014

The second year it became a bigger event and we included the English/ American Air RaceF1 announcing the first international Formula 1 Class air racing competition on the 1st June. This was a showcase of the world's premier Formula 1 air racing pilots and their highperformance race planes.

2016

This year the number of aircraft of the different aerial modalities that took part in the Lleida Air Challenge was over 40. In addition, the festival had a covered space to host exhibitors from the aeronautical sector at a trade fair organized by Fira de Lleida.

2017

Last year there was an improvement in the air festival itself with new acrobatic exhibitions to attract the general public and especially the family, with the static exhibition of airplanes. We have also been professionalizing the trade fair set at the airport to get a professional aeronautical aviation fair.

2019

An aeronautical fair with more than 80 stands, set in the airport facilities for the first time and including parades of ultra-light aircraft, general aviation aircraft and acrobatics.

2018

An aeronautical fair with more than 60 stands, set in the airport facilities for the first time and including parades of ultra-light aircraft, general aviation aircraft and acrobatics.

2022

After the pandemic the fair opens again with great expectations, great feedback from everybody, nearly 100 stands and all the platform with aircrafts on display.

**Come and visit
Lleida**

The great diversity of the Lands of Lleida is surprising; the landscapes of the plains are crossed by a thousand and one enchanting routes.

These routes include "The River Sió Castles Route", "The Cistercian Route", "The Way of St James" and the "Lakes Train".

The capital, Lleida, is an open city in which cultural heritage—including the magnificent old cathedral, La Seu Vella— coexists with the most modern items of infrastructure, which include the new Congress and Conference Centre and the Lleida-Alguaire airport.

Festivals and age-old traditions, natural settings that are ideal for ornithologists, and a local gastronomy based on natural products are just a few of the attractions of a territory whose welcoming people and settlements full of character will seduce visitors.

Find out more:

The tremendous diversity of the Lands of Lleida is surprising; the landscapes of the plains are crossed by a thousand and one enchanting routes which include “The River Sió Castles Route”, “The Cistercian Route”, “The Way of St James” and the “Lakes Train”.

www.aralleida.cat

Widely considered a paradise for skiing and adventure sports, the Lleida Pyrenees invite visitors to discover nature in its purest form. It is important to highlight the “Aigüestortes i Sant Maurici” National Park – the only national park in Catalonia– and the natural parks of Cadí-Moixerò and Alt Pirineu.

www.visitpirineus.com

Lleida is the capital of an extensive region located in the western part of Catalonia called the Segrià, which owes its name to the river that crosses it: El Segre. Lleida is the real economic and demographic motor of Inland Catalonia. Lined with history, the streets of Lleida welcome innumerable monumental and cultural treasures that coexist with the activity and initiative of a modern city that looks to the future.
